- Gas injected polypropylene enclosure
- Speaker wall/ceiling mount stand (op onal)
- Available in black and white color

## DESCRIPTION

The FBT CANTO 8C two-way speaker system features lightweight, gas-injected polypropylene enclosure. Available in black or white finish, the FBT CANTO 8C provides fixed installations with an elegant design suitable for a wide range of applications. The FBT CANTO 8C incorporates an 8" coaxial low-frequency woofer with a 2" voice coil and a 1" high-frequency driver with a 1.4" voice coil coupled to 80° dispersion. The SPL level of low-distortion audio it provides goes far beyond expectations of such a compact solution, with a frequency range of 60Hz to 20kHz; the FBT CANTO 8C provides high fidelity sound for both speech and music applications with a maximum SPL of 125dB. Two fixing points positioned at the rear of the cabinet allow the use of a horizontally and vertically adjustable wall support (WM-68).
